

Moonee Ponds Creek Trail / Pascoe Vale - 7km Return - Easy

Start / End Point: Pascoe Vale Train Station

Description: This trail is stones throw away from the train station which makes it very accessible and also the walk itself is really quiet. The trail follows the Moonee Ponds creek, north west out from Pascoe Vale. You can expect to enjoy some nice forested areas, plenty of birds and parks to take a rest in. If you feel up for it, keep heading north up the trail to add more time and distance to your adventure.

1. Here at the Pascoe Vale station. Cross the track and walk down Gaffney St.

2. At the end of Gaffney St, keep heading East through a carpark to the trail.

3. Once you reach the creek and trail, turn right and follow the gravel track.

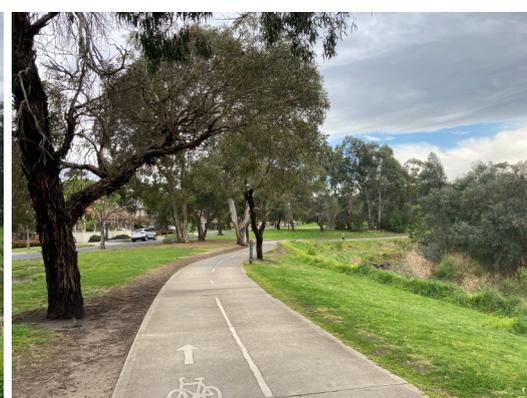

4. Nice green section. Trail on both sides of the creek (Can choice to walk either)

5. Keep heading straight here as this side of the creek is quieter. (Less bikes)

6. Take this bridge across and keep walking upstream on the left side.

7. Follow this paved track up the creek (the other side leads into suburbs.)

8. On your left here is a water fountain should you need one.

9. Here you can see a nature reserve on the opposite side that you can come back through.

10. This sports field on your left is close to the turn around point.

11. Take this bridge across to the other side and start making your way back.

12. Follow this trail back to the nature reserve, keep the creek close on your right.

13. Take the faint trail straight ahead, keeping close to the creek.

14. Keep heading straight ahead to the other side of this large tree. Then look for the crossing.

15. Jump back onto the other side of the creek and retrace your steps back to the train station.
