Its important to know that these maps have been created in July 2020. Overtime these images and satellite pictures will not reflect how it truly looks in months/years time. However, these maps will be updated on occasion so that the information is as up to date as possible.

When you plan on doing these walks, make sure you consider the following points:

- Check the weather and bring appropriate clothing to suit (Rain Jacket, warm jumpers)
- Make sure you have your personal medications and/or asthma puffers if required.
- Think about the time of day—Will public transport work for you? When will it get dark?
- How long will you be out? Do you need to bring lunch and extra water? (Good to have with you)
- Take photos, enjoy the views, journal or document the walk in a way that works for you. It's a nice thing to be able to share with others.
